"GOOD NEWS FOR ANNO TWIMMER" Edit: I can get the game to boot if I go in and manually start the mission. However, the game still crashes after my fleet has departed. I've tried this version (hardcore) of the story on a new account, and the game crashes in the mission I am on. Opening the mission in quickplay, I can play for at least a half-hour. Are you trying to play with Core? If so, have you tried another Hardcore account? In regards to the crash, have you reported the incident to EA and requested your copy be checked for errors? I've tried this version (hardcore) of the story on
